DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 29, 34-35, and 43-44 are rejected under 35 U.S.C. 102(b) as being anticipated by FR '765.

FR '765 discloses a support and coupling assembly as recited including a rear guide assembly 62D, 64D, 68 for guiding a rear portion of the support in a first path and a front guide assembly 52D, 74 for guiding a second portion of the support in a second path. The front portion moves in a predetermined path resulting from the movement of the rear and second portions of the support along the first and second paths (Figures 1, 3, and 4). The predetermined path has an arcuate portion 54D; the first path is substantially linear (64D); and the second path has a linear portion 56D and an arcuate portion 54D.

Additionally, the support is apparently rotated 20 degrees (Figures 1 and 3) or greater as the front portion of the support follows the predetermined path. Also, a first average inclination of the first path 64D is inclined relative to a second average inclination 54D of the second path.

Allowable Subject Matter

3. Claims 1-2, 4-28, and 36-42 are allowed.

Art Unit: 3612

4. Claims 32-33 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

5. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
